WORK EXPERIENCE

Full-Stack Engineer

02/2024 – Present

Kevych Solutions / Remote (based in Sangerhausen, Germany)

- **AI & Voice Advisory App (Tech Lead, team of 5):** Owned end-to-end architecture and delivery of an AI-powered voice consultation platform using **React Native and NestJS**. Defined technical direction, conducted code reviews, and led sprint planning. Designed OpenAI prompt pipelines and AWS S3 audio storage, scaling to **5,000+ active users**.
- **Creative Design Platform:** Built a headless rendering service with **Puppeteer and Express** for MP4 design exports; designed queuing architecture supporting **1,000+ concurrent exports/day** at 99.9% uptime.
- **Entertainment & Media:** Scaled a multi-platform ecosystem to **100,000+ users**. Optimized React Native performance and extended the NestJS API with **Stripe/PayPal** wallets and AI-driven internal tools.
- **Video Course Platform:** Built a subscription-based LMS that survived a flash launch of **700+ paid subs in 6 hours** via database indexing and Redis caching.
- **Children's Educational Platform:** Built a high-security educational gaming platform integrating **React Native with Unity module** and implementing **RAG-based AI** for intelligent in-game interactions. Developed custom real-time editors and live chat under strict **child data privacy standards (GDPR)**.
- **Engineering Enablement:** Built reusable project templates and CI/CD pipelines; authored internal AI documentation.
